

Insula Investment Management

A cryptocurrency investment company providing a Software as a Service (SaaS)

Business overview: 2 main activities

Insula Investment Management

- Insula offers an **access to all cryptoassets** via its investment platform. This investment platform offers 3 investments vehicles:

- 1 Insula Fund:** a decentralized autonomous investment fund gathering more than 100 coins in one single basket. This fund delivers absolute returns out of purely quantitative decisions making through programmatically executed solutions
- 2 Insula cryptocurrency:** a decentralized autonomous cryptocurrency
- 3 Insula Exchange:** provides Insula Token with a free & cyber-secure blockchain vault

Insula Investment Consulting

- The 3 main consulting activities :

- 1 Support on Insula's investment products and business model**
- 2 On demand active strategies** for investors who prefer a tailor-made approach
- 3 Tailored advising sessions**

Insula is made for investors who are **already familiar with crypto**. Clients are looking at having their crypto managed in a professional and cybersecure way

Why Insula more than anyone else ?
