

Insula Tax accountings/Investor's Profit & Loss determination:

Transactions on Uniswap are recorded on the Ethereum public ledger. This means all transactions can be traced, and it is important to disclose them and pay any tax liability you may have incurred from your earnings.

We suggest that using TokenTax for easy crypto-currency trade tracking and tax filing. See an example of the output file Token Tax produces:

Tax payment information on crypto capital gain & corporate tax:

- *Crypto Tax disclaimer & guidance [here](#)*
- *Learn how to report your crypto assets holdings for individuals [here](#)*
- *Learn how to report your crypto assets holdings for business [here](#)*

Insula's decentralized legal structure:

- InsulaDAO framework.
- Insula's business compliance policy
