

## ***Track your "Insula Liquidity Pool" investment & Insula Token swaps on Uniswap ROI***

[Uniswap ROI](#) is an online application that allows you to easily monitor your investment into the ISLA liquidity pool.

The key data to look at:

- **Uniswap ROI:** This lets you know how much you have earned from transaction fees being a liquidity provider
- **Price ROI:** This gives you insight on the change in price of the ISLA token (Equivalent to returns if HODL)
- **Net ROI:** Combination of all your returns generated on the ISLA token and Liquidity Pool

To start using the application **copy-paste** the Ethereum address which holds ISLA or the ISLA Liquidity Token and press “analyze my address”

See an example [here](#)
