Cash out your investment in ISLA token

Step 1: On Uniswap, swap your ISLA token (stored in your MetaMask wallet) for ETH.
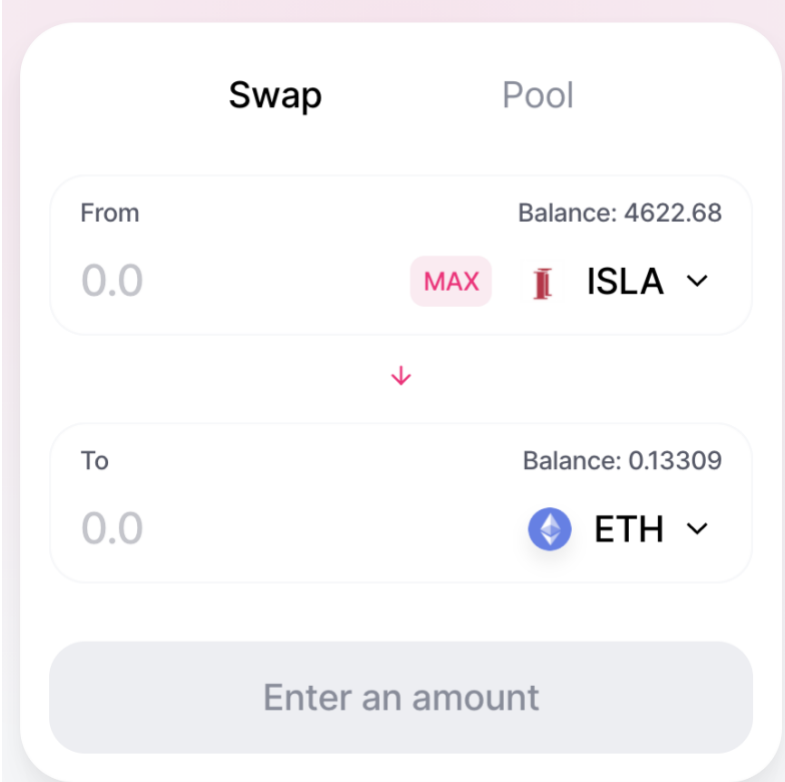

1- Copy paste this link into your browser:

https://app.uniswap.org/#/swap?inputCurrency=0x697ef32b4a3f5a4c39de1cb7563f24ca7bfc5947

If ISLA does not show up, click "import token" and copy paste this address:

0x697ef32b4a3f5a4c39de1cb7563f24ca7bfc5947

2- When prompted, *import* "Uniswap default list", *approve* ISLA & *swap* ISLA.

Step 2: Once you managed to swap your ISLA to ETH, you'll find your ETH on your MetaMask wallet.

Step 3: Now you can send your ETH from your MetaMask to your Coinbase account. Make sure you know your Coinbase address. See how here

Step 4: After receiving your ETH on Coinbase, you can now sell your ETH and deposit the proceeds to your Bank account. See how here
